ORACLE DBA || DataGuard || ASM || RAC || DataPump || DB Install
|| Upgrade || Patching || TDE || RMAN ||
Pune, Maharashtra, India

Summary

I am currently transitioning into the DevOps field, where I'm gaining hands-on experience with tools such as Git, Terraform, Python, Ansible, Jenkins, Docker, Kubernetes. My passion lies in automating workflows, building scalable infrastructure, and enhancing system reliability. To further my expertise, I am actively expanding my skill set with cloud technologies like AWS and Azure.

In addition to my DevOps journey, I bring over 5 years of experience as an Oracle DBA, where I've honed my skills across a variety of environments including Windows, Linux, Solaris, and AIX. My work has involved:

Installing and configuring Oracle databases and tools like Toad and PLSQL Developer.

Setting up Disaster Recovery (DR) solutions, including Physical and Logical Standby installations.

Performing database upgrades and migrations, along with implementing Transparent Data Encryption (TDE).

Handling database cloning, RMAN backups, restorations, and managing database objects with .sql scripts.

Using DATAPUMP utilities for refreshing schemas and monitoring database performance through Oracle Enterprise Manager (OEM) and custom scripts.

Expertise in performance tuning with Explain Plans, Oracle Hints, and proactive issue resolution.

I am excited to merge my strong DBA foundation with my growing DevOps expertise.

Experience

Netcracker Technology

Technology Engineer

February 2022 - Present (2 years 9 months)

Pune, Maharashtra, India

Project: Telenet

Tata Consultancy Services

I T Analyst (Oracle Database Administrator)

October 2020 - February 2022 (1 year 5 months)

Bengaluru, Karnataka, India

Project: Hewlett-Packard Inc.

Tata Consultancy Services

System Engineer (Oracle Database Administrator)

August 2016 - October 2018 (2 years 3 months)

Bengaluru, Karnataka, India

Project: Tata Play formerly known as Tata Sky

Education

Rani Channamma University, Belagavi
